Reasons for allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: "low voltage switching circuitry adapted to connect said output node to said low voltage source when signals at said first and second input nodes are in a low voltage configuration; high voltage switching circuitry adapted to connect said output node to said high voltage source when signals at said first and second input nodes are in a high voltage configuration; and ground switching circuitry adapted to connect said output node to ground when signals at said first and second input nodes are in a ground configuration" in combination with "circuitry adapted to connect said output node ... is changed to a second state" as recited in claim 1; "connecting said output node to ground when said signal at said first input node is in said first state and when a signal at a second input node is changed from a first state to a second state" in combination with "connecting said output node ... is changed to a second state" in combination with "connecting said output node ... is changed to a second state" as recited in claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to My-Trang N. Ton whose telephone number is 571-272-1754. The examiner can normally be reached on 7:00 a.m - 5:30 p.m.

Application/Control Number: 10/774,806

Art Unit: 2816

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on 571-272-1740. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
